Phase 1 Evaluation Report 10 8 14-EPA comments.docx

Good evening Alice,

I wanted to reach out to you regarding the USEPA comments on the CSO Phase I Recommendation Report. While attempting to respond to the comments, the team was unclear about the exact meaning, and/or question in which USEPA was asking in some of the comments. I was hoping you could provide further clarification on the following comments on the Phase I Recommendation Report:

General Comment No. 3:

Was USEPA asking a particular question in this comment, or simply making an observation? Is there a specific task USEPA is asking Tierra to complete? Could you clarify further as to what EPA is looking for with this comment?

Specific Comment No. 21

Was this comment simply an editorial comment, or was USEPA expecting Tierra to expand on anything further?

I have attached the USEPA comment file, and highlighted the above mentioned comments for your reference. If you could please provide further clarification on these comments, so that Tierra can provide a response which meets USEPA needs, it would be greatly appreciated.

Please let me know if you want to discuss.

Thanks

Brian Mikucki
